The body styles of the range are: 4-door sedan/saloon (E60 model code)The transmission adapts the output of the engine to the drive wheels. Transmissions usually have multiple gear ratios (“gears”) with the ability to switch between them as speed varies (6 gear ratios = “6 Speed”).I think the BMW is the best looking car on the road but it doesn't live up to the hype around quality engineering. I owned the car for ten years and drove it very gently with regular maintenance done on a timely basis.
