

Download 53 Human Population Growth Answer Key

The elephants are the large mammals forming the family Elephantidae in the order Proboscidea. Three species are currently recognised: the African bush elephant (*Loxodonta africana*), the African forest elephant (*L. cyclotis*), and the Asian elephant (*Elephas maximus*). Historical poverty in today's rich countries. We have already pointed out that in the thousands of years before the beginning of the industrial era, the vast majority of the world population lived in conditions that we would call extreme poverty today.
