

Download Awaken The Healer Within

The legendary Chinese poet Li Bai drowned attempting to embrace the reflection of the moon in a pond. I feel for ya, Li Bai. I once attempted to drive across the country (from Phoenix to Chicago) in the middle of the night for what I thought was love, and realized only later that the full moon had had me in her grips. Join me, Michael Beattie, as I interview 21 Health Experts to discover the true motivation behind what they do. Hear their recommendations for changing your own thought patterns and your beliefs to improve YOUR health and speed your healing. It will be a fascinating 7 days. In *Awaken the Healer Within*, Dr. Steven Raposo gives readers the fundamentals, the reasoning, and the science to do just that. Dr. Raposo explains that true health is a unique expression for each individual, and the cookie cutter approach to health care has severely compromised America's well being.
