What if your whole life was a lie? Alexis Ferguson wasn't blessed with social graces, but the ambitious high school junior has used her book smarts to get her where she is today. Jack Weatherford is The New York Times bestselling author of *Genghis Khan and the Making of the Modern World*, *Indian Givers: How the Indians of the Americas Transformed the World*, *The Secret History of the Mongol Queens*, and *The History of Money*, among other acclaimed books. At the end of the war, millions of people were dead and millions more homeless, the European economy had collapsed, and much of the European industrial infrastructure had been destroyed. In physics and chemistry, the law of conservation of energy states that the total energy of an isolated system remains constant; it is said to be conserved over time. This law means that energy can neither be created nor destroyed; rather, it can only be transformed or transferred from one form to another.
