presentation of digital storytelling, this guide gives you an understanding of the technology and how to implement projects in your classroom. Digital Storytelling Guide for Educators offers ideas, instruction, and resources. Chapter 6 demonstrates the power of digital storytelling to engage and excite students, discussing the importance of an audience and the students' personal connection ...Storytelling is an age-old art form. With Web 2.0 and the tools already available on most computers, students can use text, music, sound effects, videos, and more to create a multimedia presentation that links them to the world beyond the classroom. Storytelling is an ancient art, as ancient as the story images drawn on cave walls or the age-old traditions of the oral storyteller. But like all arts, storytelling is finding new means of expression in the modern era.
