

Download Fifty Years Well All Chicks

In the spirit of community, today we're sharing our very favorite blogs, all written by midlife women. We hope you will find inspiration in every one of them. The Australian magpie (*Gymnorhina tibicen*) is a medium-sized black and white passerine bird native to Australia and southern New Guinea. Although once considered to be three separate species, it is now considered to be one, with nine recognised subspecies. Music, Film, TV and Political News Coverage The hoatzin is pheasant-sized, with a total length of 65 centimetres (26 in), and a long neck and small head. It has an unfeathered blue face with maroon eyes, and its head is topped by a spiky, rufous crest.
