

# Download Flavor Science Most Neglected Sense

Flavor has 235 ratings and 40 reviews. Tatiana Kim said: incredible! so interesting! very useful book if you love cooking or eating, and in case you work...This book answered to questions, make sense with my experience, removed some outdated info and opened perspective ( the part on flavor and big data looked promising). The style is clear and easy to read ,the content is based on scientific studies or interviews of specialists on the field.A good book with a lot of information. Parts of my work is related to tasting and sensory analysis, a subject i always found elusive. This book answered to questions, make sense with my experience, removed some outdated info and opened perspective ( the part on flavor and big data looked promising).“Have you ever wondered why beer and salted peanuts go so well together?” is how Bob Holmes opens his book Flavor: The Science of Our Most Neglected Sense.
