

Download Gene Everlasting A Contrary Farmer S Thoughts On Living Forever

Author Gene Logsdon--whom Wendell Berry once called "the most experienced and best observer of agriculture we have"--has a notion: That it is a little easier for gardeners and farmers to accept death than the rest of the populace. From GENE LOGSDON. That's the title of my new book soon to be out. It is sort of a testimonial on how living close to nature can give comfort to those facing the inevitability of death which is all of us.
