

Download Harappan Technology And Its Legacy

About The Book. The Indus Civilization is as old as the ancient civilization of Egypt, Mesopotamia and China. It is spread over an area of more than a million sq km, an area much bigger than the Mesopotamian and the Egyptian Civilizations. Harappan Technology and Its Legacy [D. P. Agrawal] on Amazon.com. *FREE* shipping on qualifying offers. The ancient civilization of the Harappan people covered a vast area and made significant contributions to the evolution of human culture and society. One of its salient features was its technological innovativeness which is somewhat ... Delivering his lecture on 'Harappan Technology and Its Legacy', Dr DP Agrawal, director of Lok Vigyan Kendra Almora, said the legacy of the Harappan technology was all pervasive even today, for example the house plans, the technology of making carts, modern boats in Sindh, hydraulics, various motifs, the shapes of pots and platters and even ornaments seem to continue to this day.
