

Download History Primary Secondary Education Science

Secondary education covers two phases on the International Standard Classification of Education scale. Level 2 or lower secondary education (less common junior secondary education) is considered the second and final phase of basic education, and level 3 (upper) secondary education is the stage before tertiary education. This entry is concerned with primary and secondary education. Primary school education today is focussed on establishing the fundamental literacy and numeracy skills of children, as well as developing their understanding of the world. Education in Malaysia is overseen by the Ministry of Education (Kementerian Pendidikan). Although education is the responsibility of the Federal Government, each state and federal territory has an Education Department to co-ordinate educational matters in its territory. Preliminary pages. Introduction, Contents and Preface. Introduction. Education in England: a history explores the development of education in England from the Roman occupation to the present day.
