

Download Home Air Circulation Solutions

Air circulation in your home can be improved with an air handler from Lennox Residential. The Fresh Air Trickle Vent is an innovative product that brings fresh, outside air into the home, and allows the stale, polluted indoor air to escape...naturally. AIR COMPRESSION LEG MASSAGER - Use air pressure to emulate the expert hands to deliver a relaxing massage for your calf leg or arm. Inflating and deflating to improve circulation, relieve swelling, cramps, leg varicose veins and other symptoms caused by poor circulation. The aim of Kiwi Home Solutions is to help you to work out what is the next best step to make your home warmer and drier in the winter, cooler in the summer and help make your home more healthy and comfortable AND save you power, all year round.
