Experience Sociology has set the new standard for teaching Introductory Sociology. Approaching sociology through the key concepts of culture, structure, and power, the program enables students to see sociology everywhere, and make the familiar new. Hyponatremia, also spelled hyponatraemia, is a high concentration of sodium in the blood. Early symptoms may include a strong feeling of thirst, weakness, nausea, and loss of appetite. Severe symptoms include confusion, muscle twitching, and bleeding in or around the brain.
