

# Download It's The Customer, Stupid

"It's the economy, stupid" is a slight variation of the phrase "The economy, stupid", which James Carville had coined as a campaign strategist of Bill Clinton's successful 1992 presidential campaign against sitting president George H. W. Bush. (I work at a dealership. At 3:56 pm, a car pulls up into the service drive. My coworker greets the customer driving the car.) Customer: "Hi! I'm here for my appointment, but I'm a little late." One concept that continues to elude many IT managers is the impact of latency on network design. 11 years ago, Stuart Cheshire wrote a detailed analysis on the difference between bandwidth and latency ISP links.
