Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state. If the volume of literature in the popular and practitioner press is any guide, practitioners in the field of human resources are now primarily in the business of talent management. TEMPERATURE | February/March 2004 The “Danger Zone” Reevaluated. By Frank L. Bryan, Ph. D., M.P.H. For many years, a so-called “danger zone” has been used for alerting foodservice and other food industry personnel about temperatures that are potentially hazardous for holding foods.
