Efficiency: Exporting technical documentation written in Confluence and hosting it on your website or help page should be an efficient process (especially for agile dev teams). The rule should be to avoid duplicating documentation (no copy-pasting!) whenever possible. Microsoft Docs. docs.microsoft.com is the home for Microsoft documentation for end users, developers, and IT professionals. Check out our quickstarts, tutorials, API reference, and code examples. Great end user documentation consists of titles that are specific, and often in the form of performing a task. This not only makes it easier for your end users to find what they are looking for, but it helps you write better articles. A very important philosophy when it comes to writing good technical documentation. Do not go into long detailed explanations or steps. Documentation should be short, clear and easy to follow. This makes it easy for the user and helps eliminate possible errors due to details that are not needed.
