

# Download Tolyltriazole Sodium Salt 50 Solution

Synonyms: Sodium Salt of Tolyltriazole, TTA-Na, Sodium 4-methyl-1H-benzotriazolide solution, TT50%, TTA50% Recommended Use: Corrosion Inhibitor in water treatment programs. Protects copper piping. Sodium tolyltriazole 50% used as a corrosion inhibitor for yellow metals such as copper and copper alloys. In particular, TT50 can be used to protect copper piping in industrial water systems such as recirculating cooling water systems. It is most frequently used in alkaline environments such as for engine coolants & cleaners, metalworking fluids, cooling towers, inks, and cleaners. TT50 can also be used together with scale inhibitors and bactericide and algaecide. Sodium Tolyltriazole, 50% Solution For additional products, click on a category below: Categories: Closed-Loop Corrosion Inhibitors , Functional Materials , Industrial Chemicals & Solvents Tag: Liquid Chemicals Chemical Stability Tolyltriazole sodium salt 50% solution is stable at room temperature in closed container under normal storage and handling conditions. Conditions to Avoid Avoid ignition sources, dust generation and excess heat.
