

Download Variation Of Traits Lab Answer Key

Explore natural selection by controlling the environment and causing mutations in bunnies. Welcome Parents & Students! I hope everyone had an enjoyable summer. Thank you for visiting our class Website. Please visit often to get the latest news and information on what is happening in our class. Research interests. My main interest is in the evolutionary genetics of sex differences, especially sexually antagonistic genetic variation — in other words, when the same gene has opposite effects on the fitness of males and females. The Online Writing Lab (OWL) at Purdue University houses writing resources and instructional material, and we provide these as a free service of the Writing Lab at Purdue.
